

nce upon a time  
when the weather turned grey,  
roads became treacherous  
causing fear and dismay.

Then along came tyres  
that handled winter with ease,  
tyres that were proven  
under seven degrees.

Cars could now grip in  
the cold, wet and snow,  
helping drivers get home  
to a warm lovely glow.

Fit winter tyres and drive happily ever after.

**HiQ**  
Fast fit you can be sure of
